## Experience

InstaMotion Retail GmbH  
Senior Full Stack Developer  
February 2019 - Present (2 years 7 months)  
Munich Area, Germany

InstaMotion Retail's goal is to lift the car buying process online. As a core developer, I'm involved in all company processes to bring the expert vision and develop the best solution on the market.

I worked on:

- Relocation from Heroku to AWS with Docker/Terraform/Jenkins/Tests/Ci-Cd/Git;
- Developed PHP/JS/GO service templates(Starter Kits) as company standards;
- Start ReactJS frontend app with Styled Components, GraphQL, and self-developed UI library;
- Build backend REST API (NodeJs/ExpressJS/TypeScript/RAML) for banks integration;
- Start from scratch GOLANG and VueJS app for an emailing system for internal usage;
- Build PHP/JS(LARAVEL/VueJS) logistic/tracking system for internal usage;
- Build smart microservice images processing application with Serverless, NodeJs, TypeScript, Artificial intelligence, and AWS Recognition;

TechStack:

Laravel, Symfony, PHP, Shell, GoLnag, Linux, Nginx, MySQL, MongoDB, PostgreSQL, DynamoDB, JavaScript, TypeScript, NodeJs, ExpressJs, ReactJs, VueJs, Vuex, NextJs, NuxtJs, Koa, Apollo, GraphQL, REST API,

Docker, Kubernetes, CI/CD, Jenkins, AWS, MVC, SOLID, Jira, Canvas, Scrum, Agile

## AGROXY.com

CTO & Co-Founder

February 2017 - Present (4 years 7 months)

Started the agro-trading system (agroxy.com/agroxy.africa) based on modern technologies includes best practices for using humans and technologies. As one of the first founders, I'm trying to build a trusted and open community of our customers and developers. I'm helping to evolve agile development, issue tracking, incident management, and scale infrastructure.

I'm working in close tandem with a team, co-founders, and Investors to provide our ideas in life.
